

About Us

Department of Speciality Chemical Technology

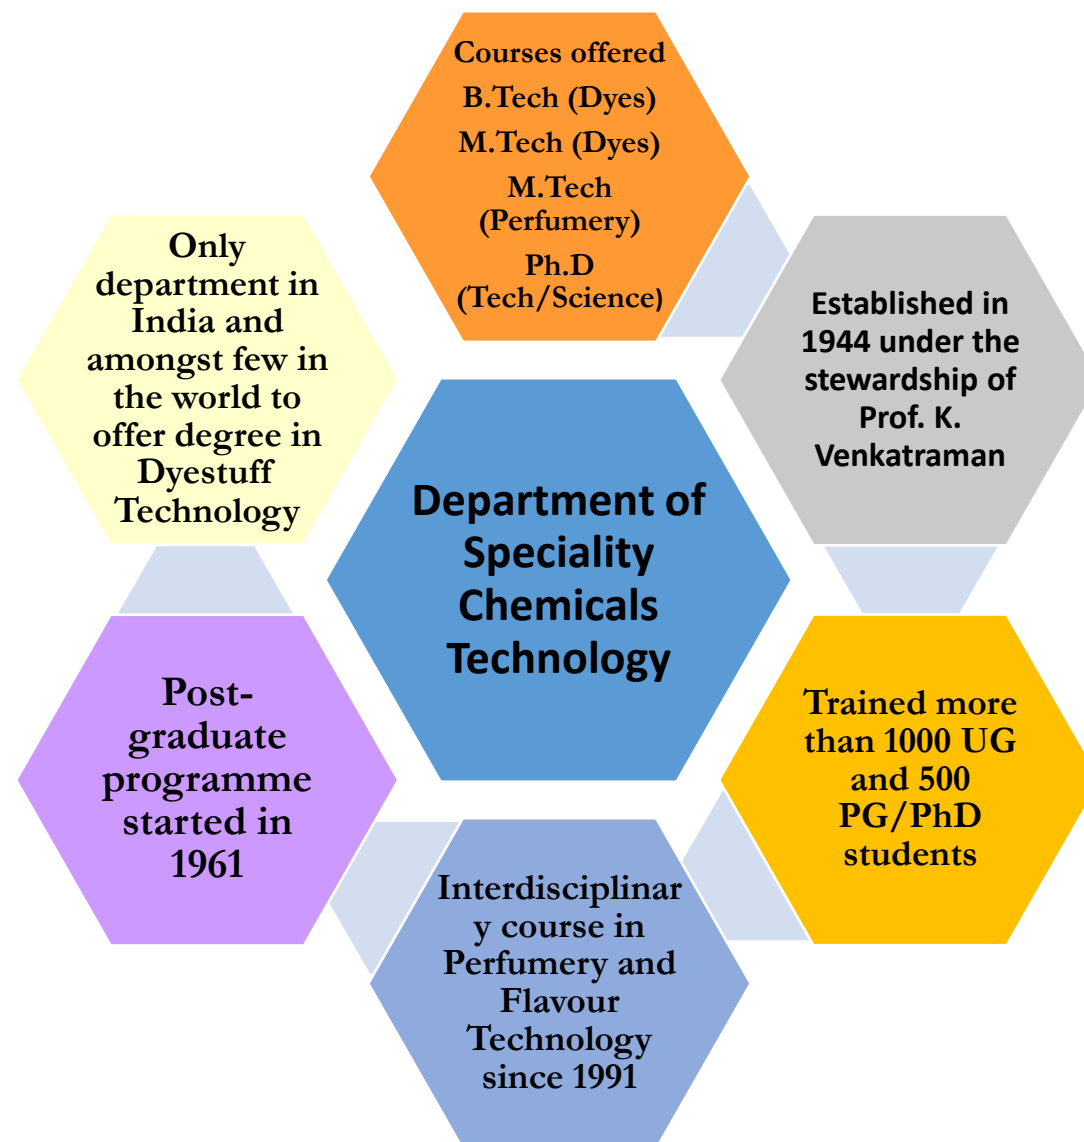

Vision Mission

Vision

Produce Leaders through Continuous innovation in education, research, creativity, and entrepreneurship.

Mission:

- Committed to creating and sustaining the conditions that enable all students to experience an unparalleled educational journey that is intellectually, socially, and personally transformative
- To pursue world-class research in the dyes and pigments, functional colourants, agrochemicals, organic process technology speciality chemicals, electronic chemicals and perfumery chemicals
- To maintain close association with industries, Government Agencies and academic institutions

DST-FIST Supported Department

Department Vision Mission

Department
Vision

To build world class programs of excellence in education and research in specialized areas of dyestuff chemistry and technology for the benefit of society through problem solving competencies

The department aspires to be one of the world's top ten color chemistry department. It will do so by:

Department
Mission

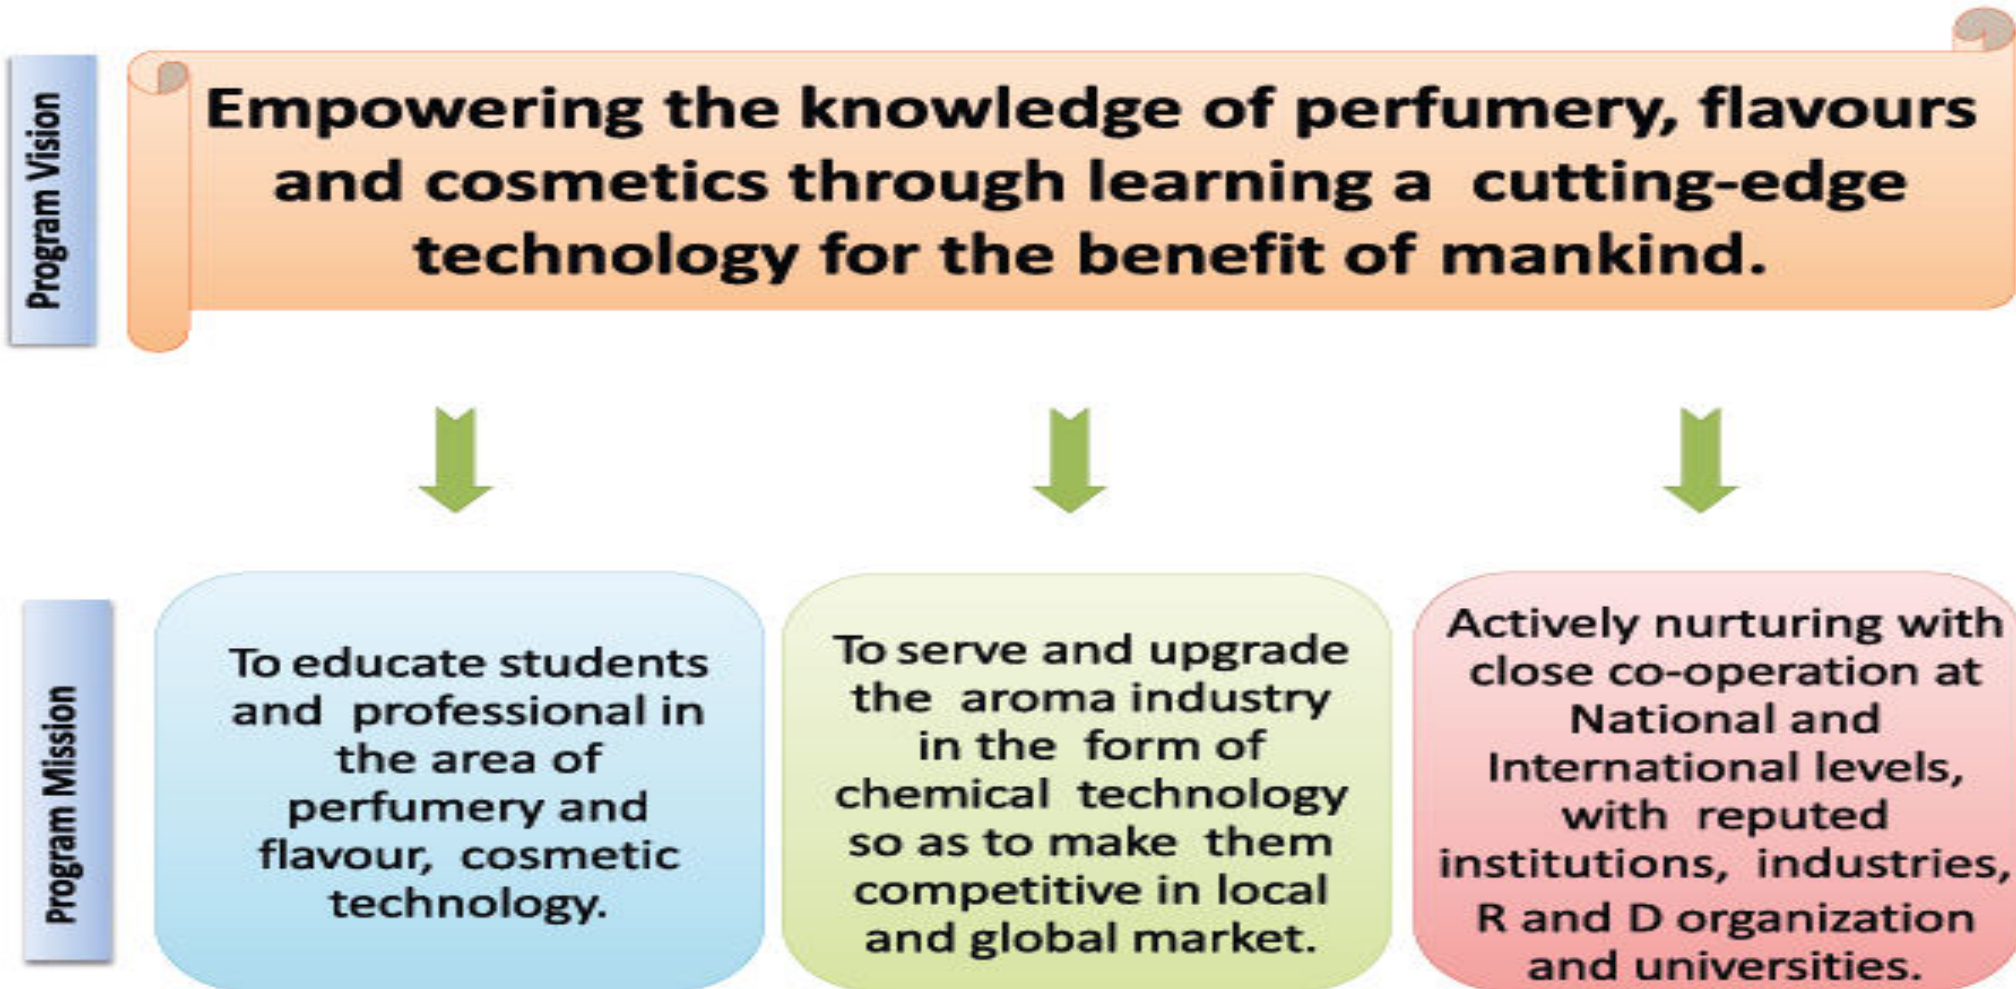

Providing knowledge and skill-based training at the undergraduate level by designing, teaching, and periodically upgrading a colour chemistry and technology syllabus in line with current and anticipated trends in industry and academia.

Pursuing world class research in the colorants and related areas basic textile and leather coloration, functional colorants, organic process technology and specialty chemical.

Proactively developing and maintaining close interaction with national and international research laboratories, universities and chemical industries.

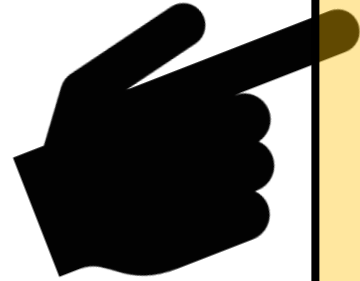

Perfumery and Flavour Technology

Vision Mission

Future Plan

Creation of Centre of Excellence

- ✓ Centre of Excellence in Agrochemicals
- ✓ Centre of Excellence in Dyes and Pigments
- ✓ Centre of Excellence in Perfumery and Flavour
- ✓ Centre for Process Innovation
- ✓ Centre for Electronic Chemical Manufacturing
- ✓ Creation of a Training centre with residential facility
