

INSTITUTIONAL VISIT TO NCL & IISER

VENUE: ICT MUMBAI

DATE: DEC 20th

Vortex 11.0 successfully executed a comprehensive institutional visit, bringing together undergraduate (UG) and postgraduate (PG) students alongside esteemed faculty members. The central aim of this initiative was to expose students to real-world insights in the forefront of research and development within the domains of science and technology. The selected destinations for this educational excursion were the National Chemical Laboratory (NCL) and the Indian Institute of Science Education and Research (IISER) in Pune.

Approximately 100 students from various academic disciplines participated in the visit, accompanied by a team of dedicated faculty members. The diverse group of students included both UG and PG students, fostering a collaborative and inclusive learning environment.

Vortex 11.0's institutional visit to NCL and IISER Pune proved to be a resounding success, fostering a deeper understanding of academic and research practices. The experience contributed significantly to the academic and professional growth of the participating students, establishing the visit as a valuable component of the overall educational curriculum.

While NCL primarily focuses on chemical sciences and related areas, IISER Pune is an academic institution that offers comprehensive education and research opportunities in various branches of basic sciences. Both institutions contribute significantly to the advancement of scientific knowledge in India.
