

The Department is well-equipped with the state of art research facility. The list of major instruments added in last five years is provided below:

- ❖ Maliksoms `LAB-30` Laboratory Model Single Screw Extruder
- ❖ Microreactors
- ❖ Scanning electron microscope
- ❖ Particle size analyzers
- ❖ High performance computing
- ❖ Thermal Imager Testo 885-2
- ❖ Variable Wavelength Detector VWD-3100
- ❖ High Speed Refrigerated Centrifuge
- ❖ Micro Ultra Centrifuge
- ❖ Nitrogen Generator
- ❖ Fixed Bed Micro Reactor
- ❖ High Pressure Reactor
- ❖ Agilent Nano-LC
- ❖ Agilent Capillary Electrophoresis
- ❖ ICP
- ❖ GC-MS
- ❖ HPLCs with different detectors
